STORAGE CHARGES: I understand that you charge _____ per day for vehicle storage. I understand that it will be required to pay storage charges if from the date of delivery of my car to you if I do not hire you to perform or complete repairs to my vehicle (whether because my car is determined to be a "total loss", I do not authorize repairs, or for any other reason); or if I have been notified that repairs have been completed, if I have not paid for repairs and have not removed my car from your premises within that time period.

RETURN OF PARTS: Unless I have otherwise indicated in writing, I have elected not to exercise my right to keep any parts you replace upon completion of repairs, or to inspect replaced parts in the event that you are required to return them to the manufacturer or some other person under a warranty or reselling agreement.

SHOP CHARGES: In addition to charges for parts and labor, we also charge a "shop charge." This "shop charge" is to help defray the costs of certain materials and services that cannot be accurately itemized, but which are generally used and performed in the repair and service vehicles. These items and services include, but are not limited to, rags, bolts, screws, hand cleaner, and waste and oil disposal. This charge is calculated as a percentage of the total labor charge.

FLAT RATE HOURS: I understand that your repair authorization and invoice will itemize repairs, including charges for parts and charges for hours of labor to perform repairs. I further understand that your labor charges on your repair authorization and invoice are based on "flat rate" hours, which may not reflect actual hours worked, but rather estimated repair times based upon standard industry estimating guides.
